

<i>Self-Assess Your Willingness to Participate in a PLC</i>	
<i>Willingness to Participate in a PLC</i>	<i>Yes/No (Why or Why Not)</i>
I want to use my knowledge and skills to help other teachers.	
I want other teachers to share their knowledge and skills to help me improve my teaching.	
I am willing to participate in and promote open, honest communication.	
I will participate in a collaboration That is focused on improving student learning, building shared knowledge about best practice, and making a difference in terms of results, no matter what.	
I will honor my commitments to members of my PLC.	
I want to analyze student work at a higher level, set goals based on that data and implement effective teaching practices to meet those goals.	
I am willing to try and adapt new instructional practices, even if they are not successful the first time.	
I will help establish team goals, norms and protocols to ensure collaborative work and participate in adjustments needed to ensure this focus.
